25X1

1. The GRIPS ID-ALCA (L 55/P 72) airfield (location see Annex 1) was not occupied by the Soviet Air Force. Debris of destroyed buildings was cleared. The railroad spur track, out of use for a long time, was rusty and overgrown. The construction material salvaged at the field was hauled away on the still passable taxiways and field roads. Some of the roads were demolished.
2. There were no indications of intended reconditioning work at the field which showed little possibilities of reconstruction. The field was plowed and not serviceable.

3.

Comment :

a. The report confirms the condition of the field as previously stated by other sources. From the information it cannot be assumed that the field is to be reconditioned.
